## Section 1 – Introduction

This directory provides a list of CareOregon Advantage Plus' network providers.

You will have to choose one of our network providers listed in this directory to be your **P**Primary **C**are **P**rovider (PCP). Generally, you must get your health care services from your PCP.

Generally, you see your PCP first for most of your routine health care needs. There are only a few types of covered services you can get on your own from a network provider, without seeing your PCP first:

- Routine women's health care, which includes breast exams. This care is covered without a referral from your PCP.
- Flu shots and pneumonia vaccinations.
- Emergency services, whether you get these services from network providers or non-network providers.
- Urgently needed care that you get from non-network providers when you are temporarily outside the plan's service area.
- Renal dialysis (kidney) services you get when you are temporarily outside the plan's service area.

The network providers listed in this directory follow appointment wait time standards for primary care and behavioral health services. Those wait times are as follows:

- Urgently needed services or emergency—immediately

- Services that are not emergency or urgently needed, but the enrollee requires medical attention—within 7 business days
- Routine and preventive care—within 30 business days

The network providers listed in this directory have agreed to provide you with your health care/vision services. You may go to any of our network providers listed in this directory; however, some services may require a prior authorization. For more information about covered services and prior authorization, please see your *Evidence of Coverage*.

### **What is the Point of Service (POS) benefit and how to use it**

With CareOregon Advantage Plus' Point of Service (POS) benefit, you may see non-network providers who are willing to provide services under Medicare Part A and B (Original Medicare) and agree to accept CareOregon Advantage Plus' payment terms and conditions.

**Please note:** With the exception of emergencies or urgent care, it may cost more to get care from out-of-network providers using the POS benefit. See your *Evidence of Coverage* for your exact POS benefit information.

### **What should you do if you have bills from non-network providers that you think should be paid by CareOregon Advantage Plus?**

In addition to your Point of Service (POS) benefit, we also cover certain health care services that you get from non-network providers. These include care for a medical emergency, urgently needed care, renal dialysis (kidney) that you get when you are outside the plan's service area, care that has been approved in advance by your network provider and any services which were ordered to be covered through an appeals process.

You should never pay any non-network provider more than what the plan is allowed by Medicare. The provider has a right to get his/her fees but does not have a right to get them from you. Ask the non-network provider to bill us first.

- If you have already paid for the covered services, we will reimburse you for our share of the cost.
- If you get a bill for the services, you can send the bill to us for payment. We will pay your non-network provider for our share of the bill and will let you know what, if anything, you must pay.

If a non-network provider asks you to pay for covered services you get in these situations, please contact us at:

## Getting care when traveling or away from the plan's service area

If you need care when you are outside the service area, your health care coverage is very limited. The only services we cover when you are outside our service area are care for a medical emergency, including maintenance care and hospital care after you are stable (known as post-stabilization care), urgently needed care, renal dialysis (kidney) and care that CareOregon Advantage Plus or a network provider has approved in advance.

Urgently needed services are covered from network providers or from out-of-network providers when network providers are temporarily unavailable or inaccessible.
